FOLIC ACID

Dr. Robert Stokstad started in the laboratory of the Western Condensing Company, Petaluma, Calif., in 1937-trying to isolate the chemical in liver that gave new life to sufferers from Anemia. Again in Pearl River, N. Y., he continued his work, using many tons of liver and spending hundreds of thousands of dollars in brain-fagging research. Out of it all, in 1943, came folic acid, which works magic within three or four days when given to patients afflicted with Microcytic Anemia.

#### WELCOME (?) TO LA BELLE FRANCE

Reading the travel ads for France or Italy these days link with New Orleans' next-door is almost as good fiction as a best seller. Some advertising writers have outdone themselves to assure the Americans that 'France is just what it was." Then comes a deluge of adjectives and purple phrases describing the stir up business. #### RUMORS ABOUT RUSSIA

There are strange rumors leaking out of the Soviet Union, and some of them seem to come from more or less are small branch plants of northern reliable sources. It is alleged that there is a run on the ruble, that a wave of "panic buying" is under way, that currency devaluation and higher prices are planned by the Kremlin. There are other rumors of strong underground opposition to the Russian government.

So far no Russian or communist source has admitted ed in Mississippi the truth of any of these rumors. They all say, and attempt to prove it by Karl Marx, that booms and busts Bilbo's senate seat-is an able citicannot occur under communism. If the bolshevik government in Russia now is compelled to raise consumer prices sharply, after cutting them by 40 per cent in July, 1946, that won't be called a flunctuation in the business cycle. Tre Kremlin is more likely to ascribe it to a dastardly American plot.

These rumors about internal trouble in Russia may be true, but Americans would be wise not to engage in wishful thinking as a result of them. After World War I the imminent fall of the bolshevik government was ru mored so often that it became a joke. After Hitler doublecrossed his pal Stalin and invaded Russia, it was widely believed that Russia was so weak she would soon collapse.

So today it would be wise to assume that Russia will remain strong. If she turns out to be weak, so much the Mud Puddles

Most of the wishful thinking about Russian weak ness has stemmed from the assumption that a false ideology cannot produce a strong government. But history records many strong governments, from Genghis Khan's what new scandal is going to be to Hitler's, with bad ideologies or none.

Nevertheless, there are cumulative signs that all may Overell murder trial has ended of your host and not be well in Russia. (By Holmes Alexander)

WASHINGTON, D. C., Dec. 10.—Compare these two quotations: Winston Churchill, shortly before Pearl Harbor, in 1941: "Give

us the tools and we will finish the job. Dr. Abba Hillel Silver, Zionist leader, December 1947: "We only ask for arms and weapons to defend ourselves against the Arabs

Diplomatic Hokum Both statements are hokum-diplomatic hokum. Churchill in his famous broadcast was in effect telling the American people that they would not be drawn into the war, provided they continued to pass the ammunition. But Churchill and the whole Empire were bleeding sweeting and weeping in the hope that America would soon be forced to abandon neutrality and become a fighting ally. The same is true of Dr. Silver and his fellow-patriots of the Palestine Jewish homeland For the sake of the diplomatic record they cannot openly ask for military allies in the Holy Land. But military allies are what they

Direction Diplomacy May Take

desperately need if they are to win their final victory there, as they

Yesterday by telephone I tried to draw some such admission from the officials of the Jewish Agency for Palestine. I did not get it, but I got instead some indication of the direction that Jewish diplomacy can be expected to take. The spokesman declared that reports of the Holy Land riots had been greatly exaggerated, that the riots were not so much Arab-inspired as they were inspired by anti-Semitic organizers, at least one of whom had recently returned from Berlin. The spokesman added that it was incredible to suppose that the Arab States would invade Palestine with arms obtained from the U.S. It seems that the Arabs have bought some 40 million dollars of surplus armament from this country. Finally, the spokesman reiterated the official statement that Palestine homelanders-if given arms-could fight their own battles and that Jewish leaders desired no protection from outside

Plan To Be Followed? I judge from this statement that Jewish diplomacy of the future will touch the following chords: (a) an appeal for world-wide sympathy in the face of an anti-Jewry conspicarcy; (b) some compensation in kind for the arms that have been sold or given to the Arab States; and (c) a continued disavowal of any attempt to attract military assist-

The (c) statement is the one which most concerns us at this mo ment. There is no doubt whatever that the Jews would prefer to do without "protection". They have had enough of that during the past 2000 years-under the Romans, Turks and British. But as little as they desire armed intervention, they desire unlimited bloodshed and possible failure of their long-cherished hopes much less.

#### Good Diplomacy

The brave talk about going it alone is good diplomacy. It will serve—as did Churchill's talk—to win new friends and bind old friends face value. The Jewish statesmen know very well that the United to a good cause. But it will never do to take diplomatic talk at its Nations charter, under which they received the right to found their homeland, provides for the formation of an international police force to do exactly the kind of work now needed in Palestine. To make the same point, in other words, the Jewish diplomacy is aimed to emphasize the need for a world police force and to draw attention to Articles 43, 44, 45, 46, and 47 of the U. N. charter. These articles provide the machinery by which the force could be called into being.

But the logic of the Jewish diplomacy is likely to carry beyond the mere high-lighting of these articles. It is likely to force the United States a long step farther up the road toward world government. Our leadership is such that we could create an international police force by merely proposing it-in or out of the U. N., with or without the participation of Russia.

Jewish diplomacy will no more decide our foreign policy for us than did British diplomacy during our neutrality period. But it may help, and it bears watching. (Distributed by McNaught Syndicate, Inc.)

WASHINGTON, D. C., Dec. 10.—Compare these two quotations: Winston Churchill, shortly before Pearl Harbor, in 1941: "Give

us the tools and we will finish the job."

Dr. Abba Hillel Silver, Zionist leader, December 1947: "We only ask for arms and weapons to defend ourselves against the Arabs."

Diplomatic Hokum

Both statements are hokum—diplomatic hokum. famous broadcast was in effect telling the American people that they would not be drawn into the war, provided they continued to pass the ammunition. But Churchill and the whole Empire were bleeding sweeting and weeping in the hope that America would soon be forced to abandon neutrality and become a fighting ally. The same is true of Dr. Silver and his fellow-patriots of the Palestine Jewish homeland. For the sake of the diplomatic record they cannot openly ask for military allies in the Holy Land. But military allies are what they desparately need if they are to win their final victory there, as they richly deserve to do

Direction Diplomacy May Take,

Yesterday by telephone I tried to draw some such admission from the officials of the Jewish Agency for Palestine. I did not get it, but I got instead some indication of the direction that Jewish diplomacy can be expected to take. The spokesman declared that reports of the Holy Land riots had been greatly exaggerated, that the riots were not so much Arab-inspired as they were inspired by anti-Semitic organizers, at least one of whom had recently returned from Berlin. The spokesman added that it was incredible to suppose that the Arab States would invade Palestine with arms obtained from the U.S. It seems that the Arabs have bought some 40 million collars of surplus armament from this country. Finally, the spokesman reiterated the official statement that Palestine homelanders—if given arms—could fight their own batfles and that Jewish leaders desired no protection from outside. Plan To Be Followed?

I judge from this statement that Jewish diplomacy of the future will touch the following chords: (a) an appeal for world-wide sympathy in the face of an anti-Jewry conspicarcy; (b) some compensation in kind for the arms that have been sold or given to the Arab States; and (c) a continued disavowal of any attempt to attract military assist-

The (c) statement is the one which most concerns us at this moment. There is no doubt whatever that the Jews would prefer to do without "protection". They have had enough of that during the past 2000 years—under the Romans, Turks and British. But as little as they desire armed intervention, they desire unlimited bloodshed and possible failure of their long-cherished hopes much less.

Good Diplomacy

The brave talk about going it alone is good diplomacy. It will serve—as did Churchill's talk—to win new friends and bind old-friends face value. The Jewish statesmen know very well that the United to a good cause. But it will never do to take diplomatic talk at its Nations charter, under which they received the right to found their homeland, provides for the formation of an international police force to do exactly the kind of work now needed in Palestine. To make the same point, in other words, the Jewish diplomacy is aimed to emphasize the need for a world police force and to draw attention to Articles 43, 44, 45, 46, and 47 of the U. N. charter. These articles provide the machinery by which the force could be called into being. Will Bear Watching

But the logic of the Jewish diplomacy is likely to carry beyond the more high-lighting of these articles. It is likely to force the United States a long stop faither up the road toward world government. Our leadership is such that we could create an international police force by merely proposing it—in or out of the U. N., with or

without the participation of Russia.

Jewish diplomacy will no more decide our foreign policy for us than did British diplomacy during our neutrality period. But it may help, and it bears watching.

Public To Have Opportunity To Contribute To Yule Program In Hospitals

#### PROGRAM OF LEGION AND ITS AUXILIARY

Continuing the custom, which has been in force for the past few years, of distributing Christmas packages to all hospitalized veterans in Pennsylvania hospitals, the Perry S. Gaston Post, American Legion, and Perry S. Gaston Auxiliary Unit, are making preparations to do their share

in this campaign.
This year, 10,000 packages will be distributed in every private, state, and government hospital. Legionnaires and members of the Auxiliary will be present in every hospital and will personally distribute these packages.

This program will cost around \$75,000 this year, and the bulk of the cost of this will be born by the posts and auxiliary units throughout the state. However, an opportunity will be given to any who wish to share in this program to contribute.

Already, one contribution has been received by the post from the father of a local boy, who gave his life for his country in the last war, and who keeps alive the memory of his son by giving to cheer those who are still suffering from the effects of the late

Anyone interested may make his contribution in person at the Legion Home, 134 N. Jefferson street, or can send his check to Gifts to the Yanks, Post Office

# **Senator Will** Renew Battle In Sugar Probe

WASHINGTON, Dec. 10 .- (INS) -Sen. McCarthy (R) Wis., is preparing to renew his battle with army and Commodity Credit Corporation officials tomorrow over the army's purchase of a billion pounds of CCC sugar at what the senator said was 10 million dollars above the world price.

McCarthy will get a chance to question army and CCC officials before the senate appropriations committee, which set aside tomorrow forenoon for hearing McCarthy's charge that the transaction was a "market manippulation" that bolstered the sugar price. Probe Other Charges

At the same time, Sen. Bridges (R) N. H., committee chairman, called on Army Secretary Royall to investigate what he termed "rumors reaching Capitol Hill" that persons in government in a position to know about large commodity transactions have profited in market speculation.

Bridges said his request to Royall was not connected with the sugar issue, and that it will be made to the heads of all departments coming before the commit-

In the first round-after which the committee broke off the fight and continued it until tomorrow--McCarthy accused the army of paying \$1.01 per hundred pounds more than the world market price in its \$52,100,000 purchase of CCC sugar last Oct. 15.

He asked if the army sought to "bail out" CCC on its purchase of most of the Cuban sugar crop at prices higher than today's mar-

# Holy Trinity Church Is Host To Choirs

Over 50 young people, representing four choirs, were in attendance Sunday afternoon, at the Holy Trinity Polish National Catholic

church auditorium. The following churches and choirs were represented; St. Cecilias choir of the Sacred Heart of Jesus and the Frederick Chopin choir of the Holy Cross, Youngstown; the White Eagle choir of the Holy Cross church, Warren, Ohio and the Lutnia choir, New Castle. The meeting was opened with appropriate remarks by Miss Helen Cwynar, president of the United choirs.

Fr. E. C. Kuzminski said the invocation, after which the various delegates discussed certain matters, among which it was proposed, that religious concerts will be given in each of the four churches, during the month of April. Fr. Kuzminski, organizer and advisor of the United choirs, addressed the delegates stressing the importance of unity, understanding and cooperation between the four choirs. 'The Messiah" by George Frederick Handel will be presented by the Music Club chorus in the First Methodist church on Sunday, December 14, at 8 p. m. Soloists for this presentation

will be the regular soloists of the First Methodist church. They are: Mrs. Edward O'Neill, soprano. whose voice is beautiful, lyric, and of amazing range; Mrs. William Felch, contralto, well known in musical circles, whose voice is one of exquisite depth of feeling and rare interpretive quality; Earl Hammond, tenor, a young returned veteran with a voice of unusual and tender resonance; Samuel Mc-Cleary, bass, also well known in musical circles as a member of the Consistory choir, his voice a resonant one with beauty of tone and depth of feeling.

Accompanists Named

The accompanists, to whom so much credit is due for the performances of both soloists and chorus, are Miss Ruth Weir, director and organist of St. Paul's Lutheran church, at the piano, and Edwin Lewis, director and organist of the First Methodist church at the organ, both accomplished

Oratorio Ever Popular

One wonders sometimes that 'The Messiah" which has been given each year for eight years, and now once again, can hold its popularity. One of the reasons may be that there is a buoyancy in "The Messiah," a noble expression of religious spirit. With the heart of a child and the technique of a master, Handel voices in this oratorio, the simple spontaneous belief that religion is joyful.

Music Joyous Mrs. William J. Caldwell in her handling of the chorus, avoids the practice of many conductors, who in an effort to give massive effects, overdoes both the volume and intensity of attack, thus making the music labored and losing the blithesomeness and joyousness which is "The Messiah's" glory. She instead, keeps the tempo going with vigor, and yet the quality of her phrasing and interpretations is simple and dignified and always in the sphere of the devo-

## **Senator Will** Renew Battle In Sugar Probe

Sen. McCarthy (R) Wis., is preparing to renew his battle with army and Commodity Credit Corporation officials tomorrow over the army's purchase of a billion pounds of CCC sugar at what the senator said was 10 million dollars

#### **LETTERS TO** THE NEWS

(fetters intended for this column must be signed with name and ad-dress of writer.)

Apt. 45. Dean Block, New Castle, Pa., Dec. 9, 1947. The Editor of The News,

Dear Sir:

Local speakers in the city have he contract prices.

McCarthy asserted that at the more active interest in our public schools, and the logical way to do this is through a Parent-Teachers Association in each building. Yet New Castle is woefully lacking in

this respect.

Many people do not realize that a P.T.A., to be successful, must have the co-operation and leaderamounts the army needed, or for the parents of a district together, delivery at the desired time. The writer has been told by pardelivery at the desired time.

The army officials said that uncerts in several parts of town that der the law CCC could not have when they approached teachers on sold the sugar at a loss, and if the the subject, there was a complete

lack of interest.

The school system of New Castle can stand improvement in several directions—this is no reflection on the hard working administration and a group of strong Parent-Teachers Associations, handed to-gether in a city-wide P.T.A. Coun-cit, could do much to help.

The county schools seem to be more progressive in having these organizations than the New Castle schools, although there is a flour-ishing P.T.A. in the Oak street district. Parents who are interested in this work should visit a meeting of that P.T.A. and see the fine cooperation which exists between active teachers and active parents.

New Castle needs more organ-

izations like this one. Respectfully, WILLIAM H. STUART.

"The Messiah" Sunday For the ninth consecutive year. "The Messiah" by George Fred-cyck Handel will be presented by the Music Club chorus in the First Methodist church on Sun-

Prepare To Present

First Methodist church on Sunday, December 14, at 8 p. m.
Soloists for this presentation will be the regular soloists of the First Methodist church. They are: Mrs. Edward O'Neill, soprano, whose voice is beautiful, lyric, and of amazing range; Mrs. William P. Felch, contralto, well known in musical circles, whose voice is one of exquisite depth of feeling one of exquisite depth of feeling and rare interpretive quality; Earl Hammond, tenor, a young returned veteran with a voice of unusual and tender resonance: Samuel Mc-Cleary: bass, also well known in musical circles as a member of the Consistory choir, his voice a resonant one with heauty of tone and depth of feeling.

Accompanists Named The accompanists, to whom so much credit is due for the performances of both soloists and chorus, are Miss Ruth Weir, director and organist of St. Paul's Lu-theran church, at the piano, and Edwin Lewis, director and organ-ist of the First Methodist church at the organ, both accomplished

Oratorio Ever Popular One wonders sometimes that The Messiah" which has been "The Messiah" which has been given each year for eight years, and now once again, can hold its popularity. One of the reasons may be that there is a buoyancy in "The Messiah," a noble expression of religious spirit. With the heart of a child and the technique of a master, Handel voices in this

oratorio, the simple spontaneous belief that, religion is joyful.

Music Joyous Mrs. William J. Caldwell in her handling of the chorus, avoids the practice of many conductors, who in an effort to give massive effects, overdoes both the volume and intensity of attack, thus making the music labored and losing the highespread and involumes. ing the music labored are losing the blithesomeness and loyousness which is "The Messiah's" glory. She instead, keeps the tempo going with vigor, and yet the cuality lef her phrasing and interpretations is simple and dignified and always in the sphere of the devolutional

Splendid Performance Anticipated The chorus responds well, and there is complete unity between the director and chorus and recent rehearsals indicate that a truly magnificent performance will be

And in this year 1947 when this world of ours is ravished by fears and tempests that will lead us we know not where, it is interesting to note what a newspaper report-er wrote, after the first perform-ance of "The Messlah" 205 years ance of "The Messiah" 205 years ago, "Words are wanting to express the exquisite Delight it afforded to the admiring crowded Audience. The Sublime the Grand, and the Tender, adapted

Ideart and Ear".

So we today, in listening to this glorious oratorio, may be glad and joyful for it is music to make one feel, not humble, but proud and confident.

A screwdriver that furnishes its own light is one of the latest in tool novelties. A tiny light bulb and battery are in its handle.

New Highway Signs Reduce Rose Point Traffic Hazard

Above is shown a composite picture, taken by the News photographer, showing the new signs which have been placed at Rose Point, where one of the worst traffic hazards in this section of the state exists. To the right can be seen the reduced speed sign, which is located one-half mile west of Rose Point, while Richard E. Rentz is seen looking at one of the seven 35-mile speed limit signs which are spaced through the village at the right side of the road. #### Charges Russians Allowed Germans **Base At Murmansk**

Rep. Busbey, Illinois, Says Captured War Documents Bear Out Assertion

WASHINGTON, Dec. 10 .- (INS) -Rep. Busbey (R) Ill., accuses the Soviet government of having permitted German U-boats to operate from the Russian port of Murmansk in their attacks on U. S. and allied shipping for more than nine months before American entry into the war.

Busbey asserted that this continued until the Bermans invaded Russia in June 1940.

The Illinois congressman said evidence is contained in captured German documents on the Molotov-Ribbontrop pact of 1939 which never have been made public.

Termed Secret Base Busbey declared he had knowledge that German submarines began using the Russian port as a 'secret" base immediately after the pact was signed in August of 1939 and continued operations there until Hitler invaded Russia in June of 1940.

He charged that German U-boats were refueled and re-outfitted at Murmansk for forays against U. S. merchant marine fleets carrying supplies to Great Britain. He asserted that Russian permission for Saturday, March 20, Set For An- Officers For 1948 Were Elected At German use of the port was "responsible for the sinking of so many of our ships early in the war".

Wonder Minerals

RHEUMATISM, arthritis are dreadful diseases. Acid condition in the blood is often their cause. What could be the remedy? For thousands of years minerally are thousands of years. THE IDEAL COLON. A person in perfect health possesses a colon like this—firm, muscular and regular. thousands of years, minerals have been used to relieve the pain and suffering of these ills. People, on the advice of doctors, go to mineral springs to find cure, or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there regularly twice a year.

YEAR after year, people rush to mineral springs and spas, to drink and bathe in their miraculous water. We have all heard of the wondrous springs of Lourdes, France, and famous Thronion in ancient Greece where, according to legend Hercules, the god of eternal strength and youth, drank its waters and bathed to be forever young.

Amazing Results

GEO-MINERAL contains min-erals you get at the world's best springs. Watch your elimination from your bowels a day or two after using it. The waste, black as the color of your shoes, will start to break away, and you will SEE it. Also examine your urine. You may see impurities—poisonous waste—coming out of your kidneys, relieving you. And then realize the priceless value of GEO-MINERAL.

GEO-MINERAL is not a physic and does not interfere with the foods in the stomach. It cleans and purifies the intestines, thoroughly relieving gas, toxins, acids, and bloating. After these poisons are out of the system and the kidneys purified, we begin to feel the arthritis and rheumatism leaving, and Nature starting to complete the

## YOUR **TELEPHONE** DIRECTORY

is a part of Good Telephone Service: ai Low Cost

236 CARLOADS OF PAPER are used in the 4,735,500 telephone directories that we distribute throughout Pennsylvania during a single year . . . and to print the 81 different editions, 2,140,981 separate listings must be set in type and proofread. The printing itself consumes 118 tons of ink.

If it weren't for telephone directories, vast amounts of additional telephone equipment would have to be installed in every central office . . . and the cost of providing telephone service would be greatly increased.

Use your telephone directory. When you do, you get faster service. And because you do, you get service at lower cost.

# will try to create A GAS SHORTAGE!

Severe Cold Weather Doubles the Demand!

OLD MAN

Today, more than ever before people depend on gas for home heating, cooking, water heating and refrigeration. This unprecedented demand keeps gas supply lines loaded close to capacity even in normal winter weather. Should we become the victims of severe cold weather this demand will jump to almost double . . . and gas pressures in the lines could reduce to dangerously low levels.

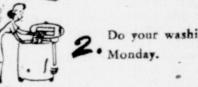

Your GAS COMPANY is doing Everything Possible! Long ago we anticipated the grave possibilities of a gas shortage this winter. We rushed through

an expansion program involving an expenditure of 12 million dollars to increase our distribution and gas storage facilities. Some of this work has been completed . . . but much has been delayed by a critical shortage of vital materials. To conserve the existing gas supply we restricted new gas heating installations. But we still must ask your help. Please co-operate with us by conserving gas wherever you can.

Here's How You Can Help.

#### **Charges Russians Allowed Germans** Base At Murmansk

Rep. Busbey, Illinois, Says Captured War Documents Bear

WASHINGTON, Dec. 10.—(INS)
—Rep. Busbey (R) III., accuses the
Soviet government of having permitted German U-boats to operate from the Russian port of Mur-mansk in their attacks on U. S. and allied shipping for more than nine months before American entry into the war.

Busbey asserted that this con-finued until the Bermans invaded

Russia in June 1940.

The Illinois congressman said evidence is contained in captured German documents on the Mole-tov-Ribbontrop pact of 1439 which never have been made public.

Termed Secret Base Busbey declared he had knowledge that German submarines began using the Russian port as a secret, base immediately after the pact was signed in August of 1939 and continued operations there until Hitler invaded Russia in June of 1940.

He charged that German U-boats were refueled and re-outfitted at Murmansk for forays against U. S. merchant marine fleets carrying supplies to Great Britain. serted that Russian permission for German use of the port was "re-sponsible for the sinking of so many of our ships carly in the

# "adequate and efficient railway transportation service for the nation"

Commerce Commission on awarding a temporary freight rate increase of 10%, we quote:

"The law requires us to give due consideration, among other factors, to the need of revenue sufficient to enable the carriers under honest, economic, and efficient management to provide adequate and efficient railway transportation service for the nation . . . "

A moment's thought should convince any fairminded person that keeping the American railroads healthy is to everybody's advantage.

Every family, every businessman, even the Nation itself is in danger when this vital artery of American life is weakened.

And that threat is real, and it is now. For with

FROM THE OFFICIAL REPORT of the Interstate increases in the cost of railroad operation piling up one atop another, how can the railroads' multimillion dollar program for desperately needed new equipment be continued? How can improvements in roadbeds, yards, stations, rolling stock, which took a merciless beating in the war years of peak traffic, be carried through?

#### They can't ... UNLESS-

Unless the railroads are granted freight rates adequate to meet the wage and materials cost increases, and at the same time keep hundreds of American industries busy with new machinery and equipment

Government requires that the railroads maintain a high standard of efficiency because You demand it, Industry depends on it, and the Nation must have it.

We are asking a permanent freight rate increase of the absolute minimum to meet our need-which is in every sense your need.

Our request should be granted.

RHEUMATISM, arthritis are dreadful diseases. Acid condition in the blood is often their causs. What could be the remedy? For What could be the remedy? For thousands of years, minerals have been used to relieve the pain and suffering of these ills. People, on the advice of doctors, go to mineral springs to find cure, or relief. The late President Roosevelt used to go to Warm Springs in Georgia. He was helped or would not have gone there regularly twice a year.

YEAK after year, peonie rush to mineral springs and spus, to drink and bathe in their miraculous water. We have all heard of the wondrous springs of Lourdes. France, and famous Thronion in ancient Greece where, according to legend Kercules, the god of eternal strength and youth, drank its waters and bathed to be forever young.

Amazing Results
GEO-MINERAL contains minerals you get at the world's best springs. Watch your elimination from your bowels a day or two after using it. also wrestling. Among those who grappled there recently was Strangler Ed Lewis, who was born in 1890, and Primo Carnera from whom Max Baer won the world's heavyweight boxing title. The Strangler has been wrestling 42 years, according to reports, which would have him grappling when he was 15 years of age. He has engaged in 6,200 matches and he has crossed the continent by air, reports state, 253 times. Air travel makes it possible for "rasslers" to work six times a week instead of three, in the horse-and-buggy days. Lewis is believed to be the biggest individual money-maker in sports. He is said to have grossed \$15,000,000, while Jack Dempsey, the Manassa Mauler, grossed about \$5,000,000. Lewis holds the present day grappler in contempt, and feels aggrieved because the latter-day type don't appreciate scientific wrestling. Being able to grapple with the best of 'em at 57, means he has taken good care of his body. He eats good food, sleeps from six to eight hours daily, practices the difficult feat of "unlocking mind from body" and engages in plenty of exercise, which he says "isn't

### **Parking Meters To** Bring City Nearly \$40,000 For Year

In estimating receipts to aid in paying the expenses of the city next year, Finance Director Albert A. Hoyland estimates the parking receipts for 1948, will be \$40,000. In fact, when Mayor John F. Haven was quizzed as to the 1947 parking meter receipts today he stated they would near the \$40,000 mark.

Relative to meters. the city, a year or more ago bought several hundred at a net price of \$65 per meter. The balance of slightly more than \$9,000, will be paid off next year, he stated.

Several years ago the annual re-

ceipts did not exceed \$23,000. Although he could not write his own name, a Milwaukee man street, picked it up, marked the back with three Xs, and cashed it: subsequently being sentenced

# OLD MAN will try to create GAS SHORTAGE!

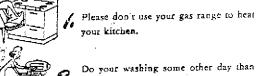

Severe Cold Weather Doubles the Demand!

Today, more than ever before people depend on gas for home heating, cooking, water heating and refrigeration. This unprecedented demand keeps gas supply lines loaded close to capacity even in normal winter weather Should we become the victims of severe cold weather this demand will jump to almost double . . . and gas pressures in the lines could reduce to dangerously low levels.

# Your GAS COMPANY is doing Everything Possible!

Long ago we anticipated the grave possibilities of a gas shortage this winter. We rushed through of a gas snorrage this winter, we rusned through an expansion program involving an expenditure of 12 million dollars to increase our distribution and gas storage facilities. Some of this work has been completed . . . but much has been delayed by a critical shortage of vital materials. To conserve the existing gas supply we restricted new gas heating installations. But we still by conserving gas wherever you can.

Here's How You Can Help.

Do your washing some other day than

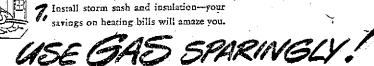

Set your furgace thermostat at 68°-still

Shut off rooms not in use-particularly attics and second floor bedrooms.

Don't use gas room heaters to supple

Use hot water sparingly-don't keep it

"QUALITY" PROTEIN

What is protein? Protein is composed

of ten amino acids. All protein feeds

contain one or more amino acids. No one protein feed contains all these es-

necessary to have a variety of proteins

factor is found in fish meal. This is why "Our Quality" Laying Mash con-

tains such a wide variety of proteins viz: dried milk, fish, meat, soybean, liver and glandular meals, yeast, etc. "Our Quality" Mash contains 20% "Quality" Protein, that is why you get

best results when you feed this feed rather than the "ordinary" 20% protein mash. Try it you will buy it.

# Prisoner Pleads, Gets 8-24 Years

Confessed Robber Gets Salty Sentence In Western Penitentiary

#### THER EVENTS IN COURT HOUSE

One of the saltiest doses handed out by the Lawrence county court in some time was given Anthony Phillips: with several aliases, by W. Walter Braham.

Phillips, whose residence is given as 320 West Falls street pleaded to as 320 west rails street pleased to six counts of robbery, larceny and receiving stolen goods. Judge Braham fined him 6½ cents and costs and gave him eight to twenty-four ears in the western penitentiary.

#### EXPENSE ACCOUNT RETURNED

Upon advice of County Solicitor William McElwee, Jr., the Board of Elections has returned the expense account of Arsen F. Armond, Demperatic candidate for county commissioner.
Mr. Armond filed his account

after the dead line for such filing. November 4. Mr. McElwee ruled the board could not accept it after the legal time for such filing had

#### CASES ON TRIAL

In Court room number one be-fore Judge W. Walter Braham, the case of drunken driving against Robert J. McClure was called Tueslay. Mr. McClure's defense is that he had been drinking but that the he had been drinking but that the drinking took place after an accident in which he figured and that while he was driving he was sober. A drunken driving case is also before Judge John G. Lamoree in court room number two, that against Michael Nosik. Mr. Nosik's defense is that he was not driving the car when the accident occurred. He states his wife was driving.

the car when the accident becurred.

He states his wife was driving.

The jury hearing the case against
Halbert Brooks found him not guilty of failure to support a minor

hild. The costs were divided. William Lucas was found guilty of indecent exposure by the jury hearing his case.

One sentence was passed by Judge John G. Lamoree. George Clifford Gorgus, driving while intoxicated was fined \$100 and costs and thirty days to jail. Out in three days if the fine and costs are noted.

# "adequate and efficient railway transportation service for the nation"

FROM THE OFFICIAL REPORT of the Interstate Commerce Commission on awarding a temporary freight rate increase of 10%, we quote:

"The law requires us to give due consideration, among other factors, to the need of revenue sufficient to enable the carriers under honest, economic, and efficient management to provide adequate and efficient railway transportation service for the nation ... " \*

A moment's thought should convince any fair-I minded person that keeping the American railroads healthy is to everybody's advantage.

Every family, every businessman, even the Nation itself is in danger when this vital artery of American life is weakened.

And that threat is real, and it is now. For with

increases in the cost of railroad operation piling up one atop another, how can the railroads' multimillion dollar program for desperately needed new equipment be continued? How can improvements in roadbeds, yards, stations, rolling stock, which took a merciless beating in the war years of peak traffic, be carried through?

#### They can't... UNLESS-

Unless the railroads are granted freight rates adequate to meet the wage and materials cost increases, and at the same time keep hundreds of American industries busy with new machinery and equipment

Government requires that the railroads maintain a high standard of efficiency because You demand it, Industry depends on it, and the Nation must have it.

We are asking a permanent freight rate increase of the absolute minimum to meet our need-which is in every sense your need.

Our request should be granted.

Game Marred By Frequent Fouls As Both Teams Show Early Season Jitters; Spears Tops Local Scorers With 13; Wayland, Lawman Shine For East.

Minus a sparkplug, but managing to get rather smooth performance nonetheless the New Castle High basketball team opened the 1947-48 pre-league season card, last night at Washington High floor, by dumping a good Youngstown East team, 41 to 30, before a capacity erowd of close to 1,000 fans.

crowd of close to 1,000 tans.

The Coach Bill Douglass lads show definite possibilities this year of developing into a tough combination, but they did miss the services of young Don Black, the services of young Don Black, the services of young bon Black, Janacone is a vastly improved player, as is Gray.

New Castle made it a clean service of the evening by winning the services of the service scoring star of last year, who was sidelined with a broken finger. Don Spears in the absence of his running mate led the pack in scoring with 13 points, and played a swell game, followed by Jimmy Janacone, and Wayne Gray.

Janacone and Wayne Gray.

Visitors Never In Lead New Castle took the lead at 2 to 0 as Janacone blasted the first field goal of the season, and Way-land of the East squad evened it up at 2-2, but Picirrillo unloosened the knot at 4 to 2 and Youngstown never saw the light of day after

New Castle led the first period 9 to 5, and at halftime the Doug-lass flippers had a 19 to 15 lead. Wayland Forced Out

Losing the services of their star center Bob Wayland soon after the third period started, the Youngstown team seemed to rip at the seams. Wayland was forced out by five personals, after amassing 11 of the Fact points to that ing 11 of the East points, to that date which read 17 for the Ohioans as Wayland left. Youngstown was not the same team without Way-land. Lawman carried the burden or Youngstown with 10 points.

Feed

"QUALITY" PROTEIN "QUALITY" PROTEIN
What is protein? Protein is composed of ten amino acids. All protein feeds contain one or more amino acids. No one protein feed contains all these essential amino acids, therefore it is necessary to have a variety of proteins in a tution. Recently it has been determined there is an unknown factor associated with protein utilization, this factor is found in fish meal. This is why "Our Quality" Laying Mash contains such a wide variety of proteins viz: dried milk, fish, meat, soybean, liver and glandular meals, yeast, etc. "Our Quality" Mash contains 29% "Quality" Protein, that is why you get best results when you feed this feed rather than the "ordinary" 20% protein mash. Try it you will buy it.

# How About An Overhaul For a Christmas Present?

"Now for glamour" said Horace Q. McGiverly of the Spring Hill McGiverly's, "there isn't much to be said for an overhaul of that old car. There isn't much glamour in a snow shovel either, but it's a handy thing to have around.

. "Not for glamour or romance, but for safe driving and peace of mind, give him an over-

driving and peace of mind, give him an overhaul for the car. We'll be glad to play Santa Claus".
